

We hope you will be able to visit the public library near where you live, and you will see that a library is a friendly, pleasant place offering both education and entertainment.

We look forward to seeing you!

COME TO OUR LIBRARY!

Welcome to the library!

There is a large number of public libraries operating in the Czech Republic. It is likely that we have the densest network of libraries in the world. There is a library to be found in every village, town and city district.

If you want to an item to take home, you will of course need to register. Our staff can assist you with the registration

Public libraries are accessible to everyone.

People can visit them without registration.

Many libraries offer pleasant spaces, internet access, study facilities, a wealth of literature, including Czech language textbooks, children's books and foreign language publications.

In some libraries, you can also borrow movies, music or games. Libraries often host various cultural or educational events for children, adults and senior citizens.

The registration fee is different for each library (usually the subscription is annual and it would set you back between CZK 10,- and 200,-).

There is no charge borrowing a book.
